AFLINA FARSIN.S (22/09/2002)

FULL STACK DEVELOPER

ABOUT ME

Full Stack Developer skilled in creating complete web solutions from front-end design to back-end logic. Experienced in building admin dashboards, CRUD applications, and database-driven systems. I focus on clean UI, efficient code, and scalable architecture while constantly improving my technical skills.

CAREER OBJECTIVES

I am a passionate and dedicated Web Developer, having successfully completed a Web Development course from vhilv Technology. I have strong knowledge of HTML, CSS, JavaScript, python and php with hands-on experience in building responsive and user-friendly websites with backend. I enjoy converting creative designs into functional web pages and continuously improving my skills by learning new web technologies. I am eager to contribute to real-world projects and grow as a professional web developer.

PROJECTS

Portfolio Website

- Designed and developed a personal portfolio website
- Used HTML, CSS, JavaScript for responsive layout
- Implemented animations and hover effects

Business / Blog Website

- Created a modern blog-style website layout
- Focused on clean UI and user experience
- Optimized for mobile and desktop screens

STRENGTH

- Quick learner
- Creative design thinking
- Good problem-solving skills
- Strong interest in web technologies
